Screen 5
Trusted Contacts

Flow:

User downloads app → Intro slides → Phone verification (OTP) → Add 2–3 trusted contacts → Arrive at Home screen

Privacy first: contacts require consent. Data encrypted in transit.

Screen 8
Live Tracking

Screen 9
Safe Confirmed

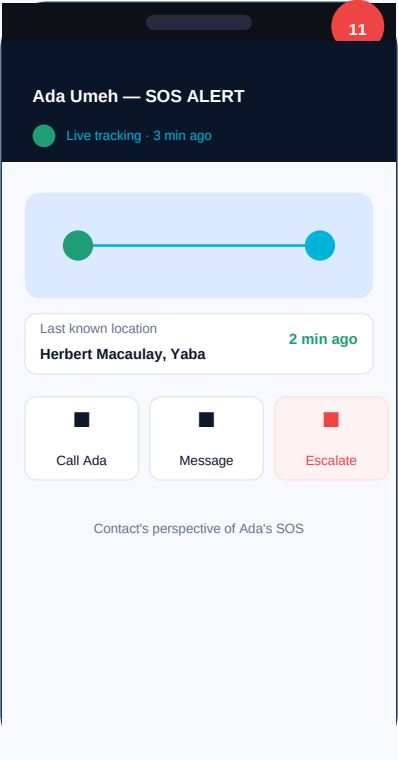

Flow:

Home → Tap 'Start safe arrival' → Set destination + ETA → Contacts receive live tracking link → User confirms arrival → Session closes

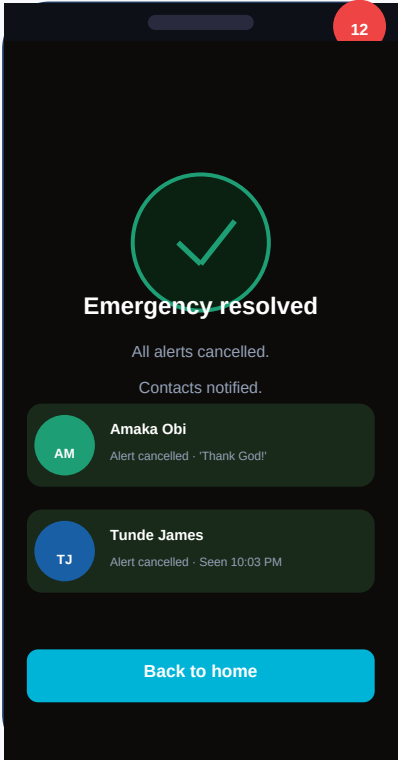

Prevention-first design: reduces anxiety before danger occurs. No emergency needed to use LifeLine.
